

BUNN

Model 8" Ring Tyer

Now for Small and Long Bundles

The New 8" Bunn Ring Tyer still uses the quality Bunn Tying Head System and controls that have stood the test of time since the beginning. Now we've added a new twist. The New 8" Bunn Ring Tying Machine has the same great features as the larger unit but now for small packages that will increase production flow, reduce downtime, lower maintenance costs, while improving production flow.

Our New Electronic Control System adds flexibility to easily interface with other equipment in your shop to enhance your bundling requirements.

QUALITY PRODUCTS

Operations:

Simple operation. The operator positions the package on the front table, then presses the foot trip. By means of a revolving arm that carries the twine around, the package is secured. The Bunn Tying machine automatically adjusts the length of twine.

Applications:

Bunn Tying machines are ideally suited for the following applications:

Printers, publishers, direct mail operations
Cartons, boxes, bundles
Textile, garments and commercial laundries
Industrial, furniture, wood products
Retail, food, pharmaceutical, electronic distribution
Plastic and Metal products

Features:

Programmable controller
Adjustable tension for reduced product damage
Heavy duty adjustable leveling pads
Heavy duty constructed frame
Steel access door with electrical disconnect
Simple threading procedures

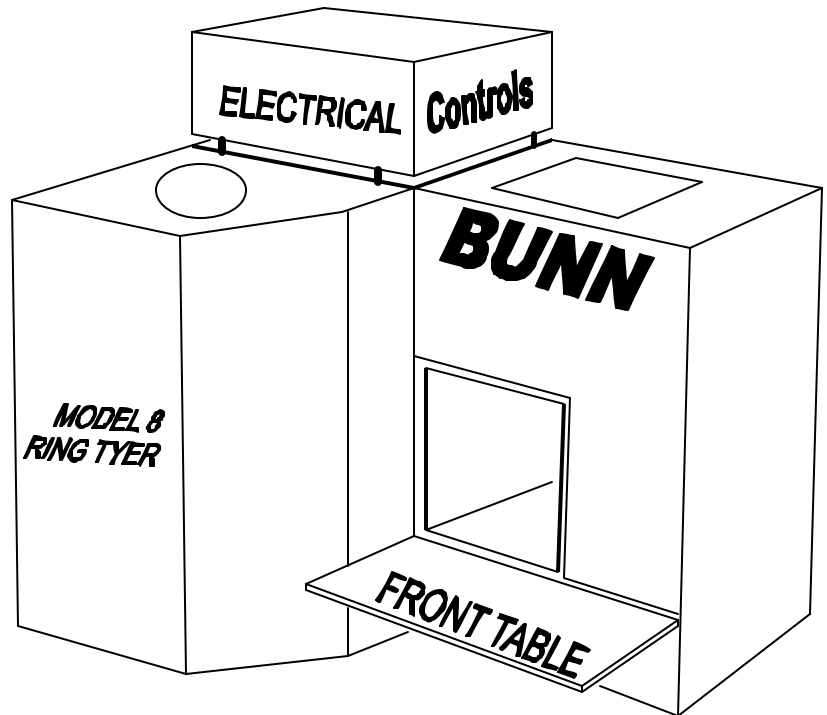

OTHER QUALITY BUNN PRODUCTS:

Bunn Twine or Poly Tape
Genuine Bunn Tyer Parts
Strapping Machine & Strap
Stretch Wrap Machines & Film
